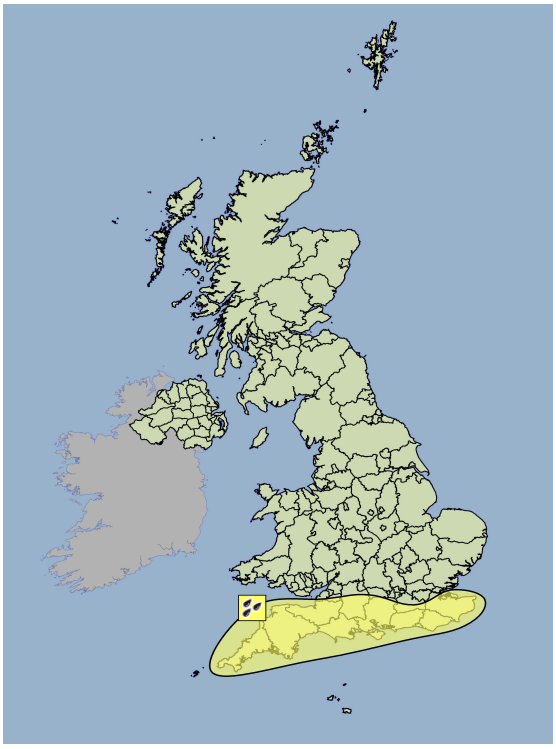
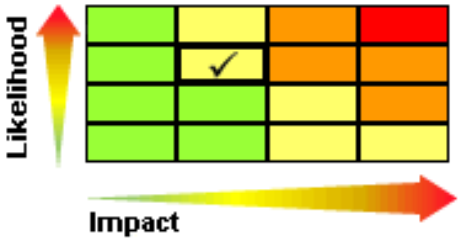
National Severe Weather Warning Service





Chief Forecasters Assessment
A frontal zone moving swiftly across the Atlantic this weekend is expected to extend eastwards across southwestern UK late on Sunday before spreading to the rest of southern England overnight Sunday and through Monday morning. Associated rainfall is likely to be heavy at times with accumulations typically between 10 and 20 mm and locally 30 mm or more. It will also become windy in English Channel coastal areas where gales may develop for a time during Sunday evening and the early hours of Monday.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **18:00 on Sun, 03rd Nov 2013** until **12:00 on Mon, 04th Nov 2013**

Rain, heavy at times, is expected over southwest England late on Sunday before spreading eastwards to affect the rest of southern England overnight Sunday and through Monday morning. This additional rainfall, following recent wet weather, means that the public should be aware of the risk of localised flooding.
